

Forklift Electrical Part

Electrical Part for Forklifts - Forklifts may be purposely labeled to be used in dangerous places. A labeled lift truck denotes the design has met the lowest standards of ANSI/UL 558 used for engine powered trucks or ANSI/UL 583 utilized for electric lift trucks for the type of label attached.

Applications for marked lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for additional info about the permitted uses of industrial powered forklifts in your application.

If the certain forklift meets the outlined standards, labels could be placed. A labeled lift truck would show the type of designation placed on the nameplate and would have a correctly corresponding label put.
