

Meritor Part

Meritor Part - Meritor is a leading international supplier that is proudly built on a one hundred year tradition of quality and service. They specialize in various modules, integrated systems and parts to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

By just hiring future focused employees, Meritor strongly feels these top-caliber people would be able to rapidly adapt to changing surroundings and demonstrate the commitment and performance needed to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all their employees different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, braking and suspension systems for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their worldwide engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group who is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

The supplier development network is specially situated in order to support new business growth. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each aspect of the company. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within every region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
